Donna,

Annie Dookhan has tested 76 federal samples (nine of which were in 2009) but the remainder were in 2010 and 2011. These are all cocaine or crack cocaine. It is unclear how many cases these samples represent as there are multiple samples from several defendants which likely comprise a single case. There are also undercover and controlled informant buys that would likely not result in a trial but may have been used as probable cause for a search warrant or as part of another investigation. An Excel spreadsheet is attached with detailed information.

One of these US v [REDACTED] is scheduled for trial 02.27.12.

Still trying to track down if she's testified in any of these cases.

These are all the samples that I could track down.
